APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application,

and do hereby grant the same, subject to the following limitations and
 conditions: and specifically subject to those certain provisions set out in
 the ruling of the State Engineer on this application, dated April 3, 1950, and
 which are as follows: 1 - The duty of water from all sources not to exceed
 3.0 acre-feet per acre of land irrigated. 2 - Said appropriation is predica-
 ted on the presence of available water at the point of diversion and will not
 obligate the Walker River Irrigation District or Improvement District in any
 way as to the continuance of such flow of water. 3 - Said permit does not
 carry any right-of-way privileges and further the purpose of the Improvement
 District drainage works shall not be interfered with. An accurate measurement
 of the amount of water placed to beneficial use must be made. The State re-
 tains the right to regulate the use of the water herein granted at any and all
 times.
 The amount of water to be appropriated shall be limited to the amount
 which can be applied to beneficial use, and not to exceed 2.0
 cubic feet per second.

Actual construction work shall begin on or before October 20, 1950.

Proof of commencement of work shall be filed before November 20, 1950.

Work must be prosecuted with reasonable diligence and be completed on or
 before October 20, 1952.

Proof of completion of work shall be filed before November 20, 1952.

Application of water to beneficial use shall be made on or before

October 20, 1953. Proof of the application of water to beneficial

use must be filed with State Engineer on or before November 20, 1953.
